## PROJECTS

**The Slate**

The Slate is a replacement for classroom notebooks. It is a display powered by Raspberry Pi 4A and stores all notes written on to the Google Drive Cloud linked with the email used for signing in. Enables immediate access for reviewing currently or can be converted to PDF to be viewed later. A scalable project developed for the digitization of education.

**SoCure**

SoCure, a one-stop-shop for all your medical needs. This is an app that searches nearby pharmacies, looks for a single pharmacy with all your medical needs, and places an order. This app also provides an in-app consultancy facility as well as a request to change the medicine in a prescription.
